MP-AD1301A

NOTE: A: electrolytic capacitor. All ceramic capacitors are above 25V rating.

M: 5% tolerance capacitor. All other resistors are 1% tolerance.

T: tantalum capacitor.

and all capacitors are electrolytic capacitors, unless otherwise marked.

Resistor values in K, M, W, and Ω are indicated.

Capacitor values in pF, nF, and μF are indicated.

Capacitance in pF is indicated.
