

# Ibanez®

## STEREO BOX

"Ibanez" Stereo Box must be epochmaking electronic instrument making up "action effects" popular in records and stages. Available to play with El. Guitars, synthesizers, organs, drums and all other electronic musical instruments. You can enjoy the live-wire sounds making jump over the air between separate two speakers.

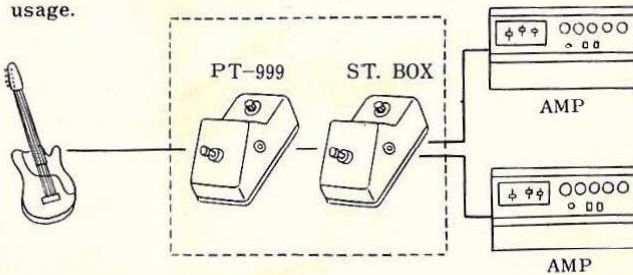

**\*\* Operation \*\***

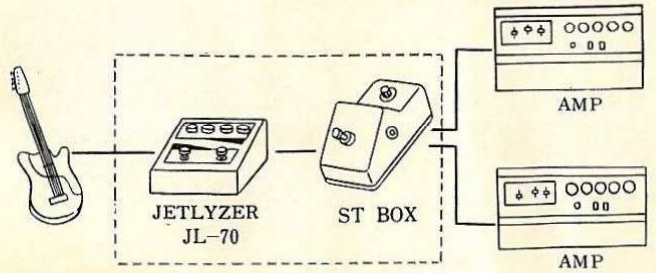

- 1) Connect right & left amplifiers to each jacks of Stereo Box and connect El. Guitar or various electronic musical instruments to instrument jack. Then the circuit is automatically turned on and ready to play.
- 2) Preset the tone and volume of two amplifiers balanced well with keeping the foot-switch of Stereo Box in normal position.
- 3) Put the foot-switch on effect and action speed changeable at your pleasure.

**\*\* Operation for combined effects \*\***

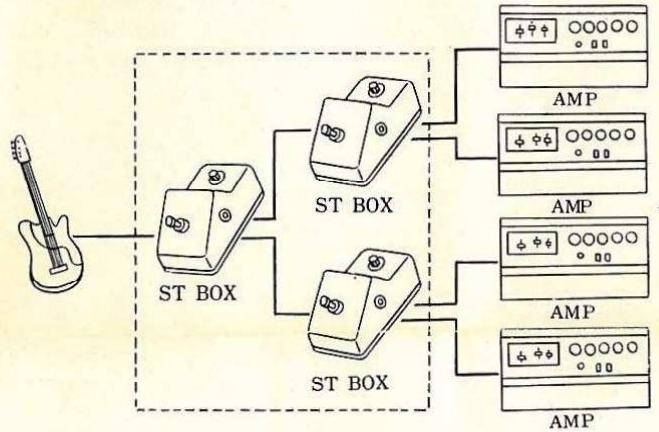

- 1) Combination with PT-999 PHASE TONE. You can enjoy spatial effect by stereo action & phasing effect together. The both go well in same design and ideal usage.

- 2) Combination with "Ibanez" JETLYZER (No. JL-70) In addition to phase tone effect, you can enjoy the simulation sound just like "jet planes" flying across the sky.

- 3) Multi-usages of STEREO BOX The utmost spreading-over effect available by adjusting action speeds and "random action effect" are brought forth at maximum.

**\*\* Important \*\***

- 1) Advisable to use amplifiers with same capacity and tone
- 2) "Ibanez" Stereo Box works good enough for continuous usage of 70 hours, but in case of no usage and in rainy season, advisable to change the battery at earlier.
- 3) To avoid the battery going out, keep the instrument jack unplugged in no usage. Please take off the battery when storing for long.
- 4) Remove the four screws on the bottom cover for changing the battery. Be sure to unplug jacks beforehand.
